

Denplan Membership Frequently Asked Questions

Who are Denplan?

Denplan, which is part of Simplyhealth, are the UK's leading dental payment plan specialist.

How does a Denplan payment plan work?

Denplan payment plans help you to budget for your dental care with confidence. Patients pay a monthly payment via direct debit which spreads the cost of preventative dental care for better oral health. Hampton Dental Care provides two different plans, Denplan Care and Denplan Essentials, which provide varying degrees of cover. Denplan Care is a comprehensive dental plan covering your routine check-ups, scale & polish appointments, all routine dental treatment required (excluding lab fees), and all emergency dental treatment. Denplan Essentials is a less comprehensive plan which includes two check-ups per year, plus two scale & polish appointments per year. Both plans have the option of worldwide emergency dental cover, and access to discounts on treatments, please see our website page for more details.

How do I join Denplan?

Your Hampton dentist can carry out a free Denplan assessment as part of your check-up, or check-up + cosmetic consultation appointment. They can advise you of the most suitable payment plan for you, and will be able to inform you which grade of plan you will require. To join Denplan Care, you must have any existing treatment completed before joining. To join Denplan Essentials, you don't need to have existing treatment completed prior to joining.

Will the monthly fee increase over time?

Denplan fees are reviewed annually, so they may rise over time, however as with all of our treatments Hampton Dental Care is on a mission to save patients money on the highest quality dental treatment.

I am already registered as a Denplan patient at another practice, but want to switch to Hampton Dental Care, how can I do this?

You should inform your current dentist that you wish to switch, as there will be a notice period for your Denplan payments to that dentist. Then simply book a check-up, or check-up + cosmetic consultation appointment at Hampton Dental Care and ask the dentist to complete a free Denplan assessment. They will be able to determine your category and can arrange your re-registration as a Denplan member with Hampton Dental Care. Unfortunately, a direct transfer from another practice or dentist to Hampton Dental Care isn't possible.
